

CONTINENTAL LOGISTICS

COAST TO COAST DRY LTL CONSOLIDATION

Simplicity and cost savings all in one package — with Continental Logistics' Coast to Coast Dry Freight Consolidation Program, your less than truckload (LTL) shipments are pooled with other freight to save you time and money. Your shipments are collected from multiple points and consolidated to a single warehouse terminal before shipping long-haul direct to the destination terminal. The freight will be delivered within 1-2 days of hitting the final terminal.

Advantages of Continental Logistics' Coast to Coast Dry LTL Consolidation Program:

- Simplicity — two consolidation points vs. multiple terminals with traditional LTL
- Fewer touches — minimized damages
- Less stops — quicker delivery time

Don't miss this opportunity to lower your transportation costs through the magic of consolidation, contact Continental Logistics today at: sales@continentallogistics.com or 732-417-0080.
